APPROVED FOR PUBLIC RELEASE. CASE 06-1104.

Division 6 - Lincoln Laboratory
Massachusetts Institute of Technology
Lexington 73, Massachusetts

Subject: Visits to IBM

To: All Division 6 Staff

From: A. P. Kromer July 9. 1954

IBM have for some time requested that advance notification of all visits be forwarded by teletype so that proper security clearance can be available to the guards and so the person to be visited can be advised.

We have agreed to this procedure, however, recently some visits have been made without previous notifications and IBM have asked that care be taken to avoid repetition in the future.

To comply with the above at a minimum of inconvenience notification of visits can be given to the teletype operation, Miss Betty Osenton, Ext. 128 or 129. (Room B-121)
