

Bush-Brown Jan 26

1. City Hall → knows places but never gone between. Will try. (Always takes turn around State Hse) Wld mount hill for City Hall until old fish out Cust. Hse tower & State Hse dome just see. (both together). Wld then lead in betw them ^{almost} toward Fan. Hall & ult. distinal. Then lead one or two sts to L Summer temple under express - then along this 3-4 small blks. & there is N. Church. Wld recognize street by its look, knowing restaurants, etc.
2. Cust. Hse tower → (thinks long) I think wld walk up hill to Wash. St. known by big Ct space, & lead to Kings Chapel. Thence up to dead end of Ct Hse. Then past State Hse, walk down Beacon to corner of Arlington & Beacon @ garden - cross ramp @ that pt. & go back slightly to Shell. Cust. Hse diff to locate in street system
3. Class R dam → (diff. bec. the obvious ways are long - e.g. Atlant. Ave. - but for walking, a no. of streets like State Hse) - Wld go across rotary into st. betw. N Sta & the hill until came to.... (drawing in air) ... the area near... want to stay S of Cust Hse... near the King's College Chapel. In Wash St this Chinatown, & @ end of any st going E wld hit Park S Sta. - KC Chapel is over too far to S - wld try Cut Park St N of Kenmore Theater (Fined led wrong

circle, that @ Cas St). Has diffie in separating these two. Simply don't know. To be safe would walk along Atlant Ave.

4. Ph Sq → N Sta : would go to Baylston, cut thru gardens & Common toward State Hse "then by car" further. Then (though ft is relation State Hse & N Sta) cut NW of State Hse (just blank, no monuments to fix on "p" until I picked up expressway. Where ramp bends in curve. & ramp for Longfellow comes in, would go for convergence until would see roof of garden.

When in "lozy area" betw Neud which knows in detail & the King's Claps - Kenmore IL - law cts - have spent much time walking there & looking @ details. But have always had trouble finding way out.

Retw. pts. I know are vast spaces, but seem short. Seems better for State Hse to N Sta than for Ph Sq. since not easy.
