Digital Computer Laboratory
Massachusetts Institute of Technology
Cambridge 39, Massachusetts

SUBJECT: IBM RELATIONS

To: Messrs. J. W. Forrester, H. Fahnestock
All Group Leaders
All Group 62 Staff Personnel

From: A. P. Kromer

Date: March 11, 1953

In order to clarify questions of the location of certain IBM personnel and organizations with whom we have contact, the following summarizes the IBM Poughkeepsie locations:

1. Project HIGH (Whirlwind II Development)

Address: 27 High Street, Poughkeepsie, New York
Telephone: Poughkeepsie 2991 - 9717
Teletype: Direct line from Whittemore Building

This is the location of the engineers specifically assigned to work on our project. This includes J. M. Coombs, T. A. Burke, H. D. Ross, D. L. Crawford, R. D. Crago, M. M. Astrahan, J. Montgomery, and others associated with these people.

2. IBM Engineering Annex

Address: P. O. Box 390, Poughkeepsie, New York
Telephone: Poughkeepsie 6920
Teletype: No direct connection. Messages may be sent to someone's attention at Project HIGH, with request that they be phoned to personnel at the Engineering Annex location.

This location is headquarters for J. A. Haddad and work done under his direction.

3. IBM Kenyon Laboratory

Address: P. O. Box 390, Poughkeepsie, New York
Telephone: Poughkeepsie 6920
Teletype: No direct connection. (See above note under Engineering Annex)

This location is headquarters for the engineering activity at Poughkeepsie, and includes the offices of R. L. Palmer and Dr. A. L. Samuel. Work done under the direction of these men may be located here or at the Engineering Annex.

4. IBM Plant 2

Address: P. O. Box 390, Poughkeepsie, New York
Telephone: Poughkeepsie 6920
Teletype: No direct connection. (See above note under
Engineering Annex)

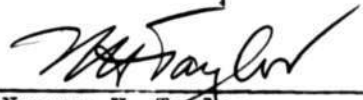

The components, standards and testing group under J. A. Goetz,
H. F. Heath and J. Geisler are located at this address.

If at any time a question exists regarding the location of any IBM personnel
or function, please feel free to contact the writer who will ascertain the
proper address or location.
