G. M. Haushalter.

First window west of porch in the south transept. Emmanuel Church
Newbury Street

Design finished Saturday 29th.

Ventilator (?)

G.M.H wishes to paint heads and hands, and his judgment is final

"Ask Mr. Allen just what modifications are to be made in the window frame. I think the templet pattern is correct, but it is better to be sure"

Keep rigidly to Gothic traditions, using no American glass.

In estimate please calculate window frame separately, unless Mr Allen wishes to have the work done himself.

The base will contain simple inscription, and a few stencil ornaments to be decided upon later.

In changing design do not change head, hands, or general pose

Donor insists upon the Holy City.
Lilies and red flowers also must be used.
