Telephoned by Robb July 21-1916

set wire plate glass (rough wire pattern) for all openings in the East Chancel window at the Church of the New Jerusalem. The plate glass is to be furnished and cut to size by the Pittsburgh Plate Glass Company, we to furnish them with templates for the work.

The work is to be completed in every detail before September 16.  
Amount to be paid for the above work is \$74.00

August 15, Telephone with Mr. Robb. & C.J.C.

Mr. Robb's going to let us know when the sizes can be taken. We are to take sizes of large chancel window; two small chancel windows; the small oblong window, and the large west window.

Oct 7. Telephone by Robb

West window should be clear leaded glass diamonds (or border) about (4 1/2) but leave this to Mr. Robb's judgment.
