General Information She particularly liked the Munn window, especially the coloring. This is to be placed next to that window, which should be borne in mind when the sketch is made. She mentioned the fact that she thinks the white glass in the Munn window is pleasing for West windows, and is not so bright in coloring, as some of the others. She also thinks the design of that window is graceful.

Window to be in memory of Walter Dodd Osborne, and is to be given by his wife and the more simple the wording you can make this inscription, the better she will like it.
