~~SECOND LEFT~~ " (Fifth panel) From the Men and Boys of the Parish

Bill to ..... Templets .....

Photos of Cartoons Mailed .....

General Information .....

* the floor of the church one does not see the window against the sky except just a few inches from the top of the panel.

All terra cotta is sort of a cain stone color --the altar frame work of all the windows. There is no wood work about them.

Make face of Christ less conventional than cartoon
Does not like landscape under Peter's hand.

For addresses of those to be notified as window progresses, see other side.
