Design wanted Staging
Blue-prints
Shipping address Received

Bill to Templets Paper pattern.

Photos of Cartoons Mailed

General Information Suggested a Saint Francis Window with "Brother Sun",
"Sister Moon", and stars, fire, water, animals, birds and sons.

We are going to use reinforcing leads rather than putting in bars.

When packing the box, screw down the top boards rather than nailing it.

Mr. Symons suggested that C.J.C.'s signature be upon the side fillet, as
it will not be seen at the bottom on account of the deep sill.

Outside size of the glass is 16 $\frac{1}{2}$ " wide and 43 $\frac{5}{8}$ " high, and a round top
of 8 $\frac{1}{2}$ " radius. The paper pattern is the "Outside" size of glass. There is
a 3/8" L shaped steel rabbet all around with a bare 3/8" space between it
and the outside stop. Window top is almost at the ceiling line.

For addresses of those to be notified as window progresses, see other side.
