Bill to _____ Templets _____
Photos of Cartoons Mailed _____
General Information Window serves to commemorate the Waterman memorial and at the same time designate the entrance to the Library. The wide border would be in pure blues, enriched with twelve golden six-pointed stars—symbols of the Twelve Tribes. Small accents of brilliant ruby and cool green complete the color scheme. The field would be of various light tints of the glass known as English Cathedral.

For addresses of those to be notified as window progresses, see other side.
