General Information "...particularly stress the idea of light grisaille back-
ground and brilliant color. Lake Forest Door - that kind of thing, and
also like the figures on grisaille in the Synagogue in Spokane.
Maginnis is anxious about light, and the clerestory windows are to be
quite brilliant light grisaille, and the aisle windows may be small figures,
on grisaille, or there may be single figures related to the Old and New
Testaments opposite each other, with medallions underneath. Want two
styles suggested, and possibly we might make one or two little sketches."
