General Information "The Ascension"
This panel presents the figure of the ascending Christ, in the center, and figures of the eleven faithful disciples kneeling below. The light field, delicately controlled by painted texture, is designed to harmonize with the field of the window already in place over the altar. For general notes see sheet #1715.
The window now in place was set by "Mr. Gregory", arranged by Rev. Schmeiser.

For addresses of those to be notified as window progresses, see other side.
