General Information Miss Lincoln has instructed us to have a sash made and call her again next week (week of Feb. 19, 1934) when it is ready.

We will then send Porche out again with the sash arranging for a carpenter from the school to be there when he arrives. He will set the glass in the new sash and bars in place and the carpenter will assist in placing it in the opening.

\*We have said that the sash would cost about four dollars and the labor about fifteen or twenty in all not including carpenter work.

For addresses of those to be notified as window progresses, see other side.
