Re: TEMPORARY GLASS  
On March 16, 1935, sent to Mr. Maginnis "a rough sketch showing two sections for the use of my recently developed grisaille throughout the nave windows of the Novitiate Chapel. I have made two sketches in order

For addresses of those to be notified as window progresses, see other side.

to show you the arrangement I prefer in order to include the outside border in the ventilator section....My price for these eight windows set in place complete is \$1000.00. ...I am also sending with the rough sketches, a finished color photograph made from the actual sample of glass that you saw in my studio."
