Points of compass: Quality of light: West, a little south

Inscription

Design wanted: Staging
Shipping address: soon.

Blueprints: Received

Bill to: Templets

Photos of Cartoons Mailed

General Information: *The Chapel is now too dark, and these windows are to be pleasant and not too expensive, keep in mind the idea to make them light and interesting.

"It is to have a figure of Saint Gabriel on a background of diamonds that are to be pearly whites with a light and somewhat interesting matt, but the object of the window is to give light. In other spaces are to be symbols, I think eight symbols of the Blessed Virgin, from the Litany."

This design suggests a treatment which is in harmony with other windows in the Chapel and which combines an effect of considerable richness with unusual light-giving properties.

The three lancets present the figure of the Archangel Saint Gabriel, and eight of the beautiful symbols of Our Lady from the Litany.

For addresses of those to be notified as window progresses, see other side.
symbolizing the dedication of the group as a whole to the Blessed Virgin Mary. The ground, to be executed in pearly whites, has for occasional accent the emblem of the lily, related both to Our Lady and Saint Gabriel as a symbol of the Annunciation.
