Medallions on background of chlengs or diamonds. C.J.C. wrote: "I have in mind for use in that background a glass that has proved very successful in attaining just the effect that I think you have in mind. It is a glass known as Colonial Antique, and I am sending you some characteristic samples. You will observe that it may be used with actual clear glass in a more satisfying manner than can the familiar antique glass, as it is gentler both in tint and in texture.
