~~straps and lily borders.~~ (Remember we have in reserve a lily border)

See photographs of five larger aisle windows already in place.

We wrote Mr. Devine Aug. 14, 1935 - "It is my plan to have windows alternate
with accents of red and accents of blue. Of course this means that all the
windows on the south side should be cooler in color than those on the
north".

Extract from C.J.C.'s letter of January 15, 1935. "It is my intention to bal
backgrounds in reds and blues so that the general effect will serve to
suggest uniformity in a pleasant way, but the blue backgrounds may be sligh
emphasized in the south. This was done in the 'Nativity' medallion. By

the same token the red backgrounds in the south may be kept slightly
smaller in area, while both blues and reds will be more luminous, though not

For addresses of those to be notified as window progresses, see other side.

necessarily larger in area in the medallions in the north...."
