General Information Remove the present east windows in the north and south
transepts of Saint Patrick's Cathedral, and install them complete in the
corresponding openings of the west elevations of the transepts.

*or at the actual cost of accomplishing the work, plus five percent - the
total amount not to exceed \$4,800*

Mr. Maginnis thinks the thing to do is to scaffold both sides, as Safway's
blueprints show and move the old windows across, - setting them in their
new position as we install the new glass.

For addresses of those to be notified as window progresses, see other side.
