General Information Mr. Krokyn thinks it will be best not to alternate the principal colors, but keep it all to the ruby.

Mr. Krokyn's choice for symbols:

- Menorah.....
- Pentateuch.....
- Tablets of the Law..... Others, such as Eagle, Fountain, Temple, could be used as incidentals in field.
- David's Lion.....
- Ark of the Covenant.....
- Ark and Dove.....
- Ram Caught in Thicket.....
- Burning Bush.....

Mr. Karoffsky wants to be sure the border colors that look rather orange now will be true deep rubies. He also hopes that the colors can be darker and deeper in the medallions, rich coloring. Eliminate all inscriptions.
