and Minister: Reverend Lon Moneynun sight $75, 6.75.

Footage 12'. Sizes, full.
Ventilators 
Position in Church: Rose window in new building: In chancel.

Protection Glass
Height from floor: 11'3". Groove Stone
Points of compass 
Quality of light: East.

Inscription
Design wanted: Soon as possible.
Staging
Shipping address... Blue-prints Received: Yes.

Bill to: Tempelts

Photos of Cartoons Mailed

General Information: Work out two ideas to share with Mr. Barber and Mr. Kiser as soon as possible. In one, a simple geometric pattern; and in the other sketch, use the symbols of the Four Evangelists. Main emphasis to be on color.

"Mr. Barber says they are sure installation can be handled locally."

For addresses of those to be notified as window progresses, see other side.
sketches for the chancel rose window at Trinity Methodist Church, Oak Ridge, sooner than I had thought, and are sending them to you herewith.

As suggested, we have developed one comparatively simple plan with a foliated pattern growing from the center and encircling stars symbolizing heavenly steadfastness.

Stars again occur through the blue border. We might interpret the four dominant ones to stand for the four Evangelists, while the twelve in the border suggest the twelve Apostles.

The other sketch includes the traditional symbols of the four Evangelists, the winged man of Matthew, the winged lion of Mark, the eagle of Saint John, and the winged ox for Saint Luke.

Here again, twelve stars through the border might symbolize the Apostles.

Both plans are kept rich and colorful, and we would substitute the actual glass with plenty of texture to control its brilliance in the east light.

I think the first and simpler design can be developed for four hundred fifty dollars, while the one with the symbols of the Evangelists would cost five hundred fifty dollars, not including their installation, which you thought could be handled locally.

As each section will be in one piece, and you have indicated a good size groove, we can plan it so the leads can be bent back for easy insertion.
