General Information Blue glass for reredos.

"We will have to cut the two long uprights and the large piece at the top  
in two sections each, and shall send strips of lead to be placed between  
them for support.

"Cut these fuller than the sample sheets, and if Mr. Whitehouse has  
no further need for these, perhaps he will send them back, as there is a  
lot of good glass in them." (O.E.S. to Whitehouse, Feb. 11, 1952.

.....

The glass to be placed behind the pierced stone reredos.

.....

Whitehouse decided upon sample No. 569. (Told Mr. Whitehouse that the  
sheets of glass do not cost more than about 75¢ a square foot.).
