To symbolize Saint Margaret of Scotland.

This will probably go either side of the short window devoted to Saint Hilda now in place.
It is claimed, it is devoted to Saint Margaret of Scotland who is crowned and in queenly robes. The Cross typifies her royal heir, royal, and the royal black one in her with her malady seal, and the relief of the True Cross which was put up in part of Lincoln, the Vale is roughly suggested her cost of.

The surrounding field is designed in harmony with the Saint Ellen window now in place, and each still beautifully complements and enhances the other.
