Vents

Position in Church 2 doorlights opening from vestibule into the nave.

Height from floor Protection Glass Groove Rabbet Metal Stone Wood

Exposure Footage 2' in the 2

Inscription "At the very bottom of the left panel, viewed from the entrance hall and not the church, should appear the name ARNOLD WEGENER 1872-1940. At the very bottom of the right panel should appear the name ROBERT WHITE 1876-1932. You know the modest relationship of the names in our St. Luke wd. to the windows as a whole. Please scale these names down in the doorlights so that compared to overall size they are equally inconspicuous and modest." *3/23/56. 5/29/56*
