Position in Church Transom over Main entrance.

Height About 8 feet from Protection Groove Metal
from floor entrance fl. Glass No Rabbet Stone
Wood.

Exposure East. Footage 6'

Inscription The inscription is to be ~~xxxxxxxxxxxxxx~~ in the intermediate panels only (2 panels), and are to be BLACK LETTERS ON WHITE - small but legible - not to detract from the window. They have given wording as follows, which is a problem, but we are to try to work it out and let them know about this: *

Design wanted Before February 9, 1959. Staging

Templates Blueprints

General Information To have a Welcoming Christ very much like the one in Towson, in the center panel, and then a simple design of Calla Lillies in the openings on either side, and the monogram I.H.C. and XP in the outer panels. Leave room for a possible inscription in the second and fourth panels.

*Inscription as given:

In Memoriam
or "In loving memory of"

Given by the Members

Rev. William Bingham Ayers, D.D.
and Sara Miller Ayers

of the

Sara M. Ayers Society."

(See card in folder).

Perhaps abbreviate to

"S. M. A. Society" -

See 4/15/59

As planned, the group over the entrance doors suggests the Welcoming Christ at the center, calla lilies, and the monograms of Our Lord, - IHC and XP at either side.

A space is provided for a possible inscription in the bases of the second and fourth panels.

The group is designed to admit an abundance of illumination to the vestibule and at the same time to convey an impression of rich pure color. We have kept in mind an appropriation of seven hundred dollars for these set in place complete.

Very important change: We are to change the IHC to IHS, but follow the form as on their pulpit - see sketch of this; also we are to change the XP to  as it also appears on their pulpit.
