Templates Blueprints

General Information We are to prepare a design, in character with the pencil sketch we sent earlier, simplifying the field and border a bit, trying to reduce it to about \$700 (Original price suggested was \$850.)

Subject: Christ in Gethsemane.

Floor plan in folder.

The windows in the curved transepts and those in the chancel are also the same size. The chancel windows are all in place - rather subdued flowers and foliage. Those in the right transept, Epistle side, have Saint John Ev, Saint Paul, an angel with scroll, and two blank. The other transept has a figure nearest the chancel that would be Abraham, Moses or S. James; next a standing (short figure) of a Welcoming Christ by Jack; next Christ, standing in vesica, with angel groups at either side, probably by Sanborn, next one blank, and last an opalescent window with cross and crown.
