General Information We are to make a color sketch similar in character to the Christmas card, but with one full Angel, a somewhat bluer background, a border, and a similar background, that is, in concentric circles from the star.

The Mausoleum will be erected this Fall (1965)

They want shatterproof protection glass that can be placed with the mausoleum, and the window set later.

Schell will plan for a double groove bronze frame with screw-in stop beads
