(This one has the for-get-me-not in it)

The "Anchor Cross" window in the upper opening.

These windows to be made and installed, when convenient to us.
Two historic forms of the cross are suggested. One is the Anchor Cross of Hope and Faith, and the other, the Globe surmounted by the Cross, symbol of Our Lord's triumph and domination over the world.

The little for-get-me-not is just for fun and to get a little blue into the composition.
