Templates..... Blueprints.....

General Information..... "The Good Shepherd"
"23d Psalm"

* Clear glass (protection glass) to be put in. Our window will have to be set from inside.

The dominant figure represents the Good Shepherd with crook, and a lamb in the protection of His arms. In contrast are the perils of the valley of the shadow, - ~~the menacing half-graded from~~ the table prepared even in the presence of the threatening lightning.

At either side are the Angels of Goodness with the heavenly crown, and Mercy with the broken sword. Other Angels hold the horn of oil and the cup that runneth over. In the lower sections the sheep rest beside still waters opposite King David, the Psalmist, with his harp. The composition culminates in the House of the Lord.

Perhaps the phrase, - "is my shepherd, I shall not want", should read directly across, rather than down the panels.

There are 13 Sheep in it now, not including the one that Christ holds, (but most of the people who looked at the sketch did not see the one in Christ's Arms). They do not want 13, so we will put in another Sheep, making 15 in all.

Be sure to make the Cruciform halo a bright red.

Re: the inscription, - use the straight line ~~type of~~ lettering.
