General Information Two very small windows, approximately 12" x 18" in the entrance of the church. "We would like simply a shield of the Episcopal Church in one window, and the shield of Saint Michael in the other."

*↘* To have a color border (April 22, 1964).

As suggested, one of the small windows is devoted to the shield of the Episcopal Church and the other, to the shield of Saint Michael, with surrounding patterning in harmony with the other windows. They are kept light to admit an abundance of illumination to that area of the church.
