3. Two exterior steel sash windows at main entrance to the convent, - each with an ecclesiastical symbol - Pair, \$230. (6 1/2' ea) (\$17.69 per foot)

Making a total of \$476, including installation.

Pastor requests that the simplest type of tinted leaded glass be used, with symbols used at the front entrance door and at the two windows.

The symbols they want for the two windows with the iron frames - the Sacred Heart of Mary, to go into the window in the entrance; and the corridor window is to be a symbol of the Augustinian Order - on Page 10 of the new Prayerbook by Father Judson "The Augustinian Prayer Book", a copy of which he gave to Troto. (It has various symbols of the Augustinian Order).

In the entrance door, a symbol of Notre Dame College - the shield which we used in one of the windows.

The glass for the main door and 6 transom to be a mixture of tints used in the aisle windows.

The windows were set with white putty, it should have been grey or black.
