Templates Blueprints

General Information

CONTEMPLATIVE

Quiet, restful scene Use Maxfield Parrish-like coloring
olive greens,

Designed through the border are local industrial symbols, - factories, box cars, metal pipes, car wheels and piles of bricks.

In the second design, the triumph of the Lamb, - the New Jerusalem and the New Earth, the Bride standing on the Globe, are the dominant symbols, with the Alpha and Omega, the beginning and the end.

The border is devoted to suggestions of the green valley, - its foliage and flowers, with the blue of the sky.
