General Information "Good Samaritan"

The compassionate traveler comes to the aid of the unfortunate man who has fallen among thieves. Near by is a vase of ointment and clothes to bind up his wounds. His donkey waits to take the injured man to the inn, symbolized above, while the Priest and Levite pass by.

In the decorative architectural "canopy" at the top is the traditional flaming rose of Divine Love.

The canopy is designed to harmonize with that in the opposite window and the figures to scale with that of Saint Luke.

\*\*\*\*\*

I feel the background should not be any darker than you have shown it on the design. I think that this would be more in keeping with the window on the opposite side.

\*\*\*\*Mr. Winfree is sending a templet of the window.
