Room 12-185

June 21, 1984.

Joel Moses
Department Head
38-401

Dear Joel,

As a followup to our meeting of 6/21/84, I'd like to formally request that the department make some financial arrangements that would allow the Minority Introduction to Engineering and Science (MITES) Program not to pay the \$2.00 per hour fee for the use of department computer terminals. MITES is a program that depends entirely upon outside funding to pay for all of its expenses. Any help you can provide in this area would be greatly appreciated.

I really enjoyed our conversation and your insights about MIT in general and the department in particular. I'll be going ahead with the Freshmen Watch of 6.001 and 6.002 spring semester. Thanks again.

Sincerely,

A handwritten signature in cursive script that reads "Bill".

Joint Computing Facilities

Dan Ottenheimer 3-2042

\$5-6 per hour

available 24 hours

20-30 terminals

2400

~~Calculate cost~~

~~Write Joel a letter~~

EECS

Susan Jones

\$2 per computer hour

They recommend use after 8 PM evenings

20 terminal

possibly weekends

application should have been in by February

Project Athena - not available this summer

Steve Lerman

3-7110 mornings

3-1327 afternoons

Dr McClaren,

I just talked w/ the people at EECS.

There is a \$2/console-hour charge.

This is cheap, ~~and~~ and considered by them to be a means of keeping every one from using their facility.

I suggest two things:

① We use this facility

② You talk to Joel Moses

using your influences & the influences
of the office to eliminate this
cost since unlike other courses using
this machine we are non profit.
