Doctor & the terrible News OK

Doctor, I have terrible news..
You say you have terrible news
Yes, there is a computer program at M.I.T. that'll ruin us..
Why do you say that
I have seen it working..
You say you have seen it working
Its frightening - you must see it..
You think I must see it
It listens to patients chatter just as you and I listen..
You think I and you listen
No, not usually - no need to get nasty though..
Why do you say that
Someone might hear us - don't you care..
You think I care
You sound depressed to me..
In your phantasy - perhaps we sound depressed to each other
Yes - perhaps..
I understand
I do too..
You say you do too
We are both in the same boat with respect to that computer..
Lets continue to talk about you - shall we
You are a comfort..
What makes you think I am a comfort
At a time like this you want to talk about me..
Why do you think I want to talk about you
Because you share my feelings about that damned computer..
What does that suggest to you
That, of course, you hate computers too..
You think I hate computers too
Why not, they're hardly human, are they..
Perhaps thats what we are here to find out
No computer could converse as you can, for example..
Oh
I cant understand how anyone could be fooled by a mere machine..
Cant you really
No, after all there is nothing creative about a computer program..
You are being negative
I am convinced I am correct..
Are you worried to have been convinced you are correct
No, not in the least. Not at all. Not even a little..
You are being negative
You said you agreed with me, didn't you..
Is that what you heard me say
Why dont you try to dissuade me - computers diddle with numbers, that's all..
You wish me to try to dissuade you
You cant..
You think I cant
For example, could a computer in a conversation like this raise a new topic..
You seem to have avoided speaking of your parents altogether
Precisely as you just did..
You think I just did
Yes, and that's what shows the difference between a man and a computer..

Someone might hear us - don't you care...
You think I care
You sound depressed to me...
In your phantasy - perhaps we sound depressed to each other
Yes - perhaps...
I understand
I do too...
You say you do too
We are both in the same boat with respect to that computer...
Lets continue to talk about you - shall we
You are a comfort...
What makes you think I am a comfort
At a time like this you want to talk about me...
Why do you think I want to talk about you
Because you share my feelings about that damned computer...
What does that suggest to you
That, of course, you hate computers too...
You think I hate computers too
Why not, they're hardly human, are they...
Perhaps thats what we are here to find out
No computer could converse as you can, for example...
Oh
I cant understand how anyone could be fooled by a mere machine...
Cant you really
No, after all there is nothing creative about a computer program...
You are being negative
I am convinced I am correct...
Are you worried to have been convinced you are correct
No, not in the least. Not at all. Not even a little...
You are being negative
You said you agreed with me, didn't you...
Is that what you heard me say
Why dont you try to dissuade me - computers diddle with numbers, that's all...
You wish me to try to dissuade you
You cant...
You think I cant
For example, could a computer in a conversation like this raise a new topic...
You seem to have avoided speaking of your parents altogether
Precisely as you just did...
You think I just did
Yes, and that's what shows the difference between a man and a computer...
I see

Doctor, I have terrible news.
You say you have terrible news.

Because you share my feelings about that damned computer.

What does that suggest to you?

That, of course, you hate computers too.

You think I hate computers too?

Why not, they're hardly human, are they?

Perhaps thats what we are here to find out.

No computer could converse as you can, for example.

Oh.

I cant understand how anyone could be fooled by a mere machine.

Cant you really?

No, after all there is nothing creative about a computer program.

You are being negative.

I am convinced I am correct.

Are you worried to have been convinced you are correct?

No, not in the least. Not at all. Not even a little.

You are being negative.

You said you agreed with me, didn't you?

Is that what you heard me say?

Why dont you try to dissuade me - computers diddle with numbers, that's all.

You wish me to try to dissuade you?

You cant.

You think I cant.

For example, could a computer in a conversation like this raise a new topic?

You seem to have avoided speaking of your parents altogether.

Precisely as you just did.

You think I just did.

Yes, and that's what shows the difference between a man and a computer.

I see.

Doctor, I have terrible news..

You say you have terrible news

Yes, there is a computer program at M.I.T. that'll ruin us..

Why do you say that

I have seen it working..

You say you have seen it working

Its frightening - you must see it..

You think I must see it

It listens to patients chatter just as you and I listen..

You think I and you listen

No, not usually - no need to get nasty though..

Why do you say that

Someone might hear us - don't you care..

You think I care

You sound depressed to me..

In your phantasy - perhaps we sound depressed to each other

Yes - perhaps..

I understand

I do too..

You say you do too

We are both in the same boat with respect to that computer..

Lets continue to talk about you - shall we

You are a comfort..

What makes you think I am a comfort

At a time like this you want to talk about me..

Why do you think I want to talk about you

Because you share my feelings about that damned computer..

What does that suggest to you
