		{C} to O.N.Church area and
		then over a bridge.

Witherell's drawn map has no indication of the downtown sts, but his base map reveals a pretty good knowledge, at least in number known, even if all his connections are not thorough. Washington faces a T with Court & State Federal St. runs from there to So Sta. & Summer St. is indicated coming into So Sta. Union, Blackstone, Prince & the Mall are shown coming into Hanover. The Central Artery crosses it – but Hanover's two ends are left dangling, as are State, Washington & all the little sts.
