Massachusetts Institute of Technology
Cambridge, Massachusetts

SUBJECT: BI-WEEKLY REPORT, PROJECT 6673, JULY 21, 1950

I.O GENERAL

(W. G. Welchman)

The Fifth Summary Report was handed over for printing on July 17. Work on Air Traffic Control has now been discontinued, and the "Restricted" Bi-Weekly Reports on Project 6673 will cease.

(D. R. Israel)

My phase of the work on the Air Traffic Control aspect of Project 6673 was completed on Friday, July 21.

During the past several months I have been working on a Master's thesis entitled, "The Application of a High-Speed Digital Computer to the Present-Day Air Traffic Control System". It is expected that this thesis will be completed by September and that it will be issued shortly thereafter as an R-report.
