R. C. Marden  
J. L. Coughlin

R. D. Buzzard  
R. R. Shorey  
J. Giordano

The minutes of concurrence meeting No. 46 was reviewed and approved.

P-173-1, Concurrence on 6M-4017, Specifications for Utilizing the Kelvin & Hughes Rapid Processing Photographic Projection System in XD-1 Command Post, received concurrence with clarifications included in the concurrence letter.

P-250, Drawing E-58233-12, Second Floor Layout of Building F, received concurrence intact.

P-227-1, Satellite Control Cable Assembly, was approved but will be rewritten before formal concurrence.

P-182-5, Proposed Remote Controls for the Large Board Projection Equipment in the Command Post, was discussed. A RECI (37A) proposing additional controls for production machines will be sent to IBM. However, P-182-5 received concurrence intact for the prototype machine.

P-220, Input Pattern Generator, was deferred pending possible change in the forthcoming Bendix specification.

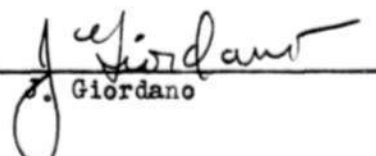

D-25-8, Color of the Switch Panels for Situation Display Consoles, received concurrence intact.

FSQ-8 Slot Capacity was discussed as to what the most desirable method (which would aid the programmers) to have in the light of schedules cost, etc. This will be further investigated.

Master Reference Lists and Equipment lists for prototype and production machines were discussed with members of the P.C.O. in an attempt to find a common ground in defining machines for contractual reasons.

The next concurrence meeting is scheduled for Thursday, 22 December, at Poughkeepsie.
