1. Governor's Visit

J. A. O'Brien commented on the visit of Governor Christen A. Herter to Lincoln Laboratory on 6 January, 1956. The Governor visited the Director's Office and was given a tour of Building F.

The question of the classification of Building F was raised and it was stated that this is to be the subject of a meeting with AFCRC next week.

N. H. Taylor indicated that the problem of guiding visitors through Building F would probably become a time consuming task in the future. He suggested that it might be advantageous to assign specific responsibility for this. S. H. Dodd stated that a standard procedure would help. It was left that these problems would be met as they arise.

2. LPO-ESS Test Program Document

H. J. Kirshner discussed the document which had been prepared by the Lincoln Project Office concerning the ESS Test Program. The document summarizes the 1953 and 1954 Cape Code System Test Programs and covers present and proposed ESS test plans.

This document was reviewed during the last week of December by Lincoln Laboratory personnel and comments were made to point out errors and inconsistencies. No Lincoln effort is to be expended toward getting the document modified for Lincoln agreement. It was generally agreed that information concerning ESS Testing would be made available to the LPO as it becomes firmed up.
