1. Progress Report by Military Liaison Office

R. A. Nelson will work with the Lincoln Laboratory Military Liaison Office in preparation of their future progress reports.

2. Extraordinary Expense Budget

The extraordinary expense budget for fiscal 1954 may exceed actual expenses by approximately \$300,000.

3. IBM Participation in Installation of FSQ-7 (XD-1)

J. M. Coombs has written a letter asking MIT to what extent IBM is to participate in the installation, maintenance, and operation of FSQ-7 (XD-1). Primary responsibility and control of XD-1 will be in the hands of MIT. N. H. Taylor believes that an essential part of IBM's role will be the assignment of a man like H. D. Ross or N. Edwards to the installation at Lexington to provide the necessary liaison. This senior liaison man should have an adequate supporting staff.

5. Staff Salary Review

The lists of staff members for each group were reviewed and merged. A few staff members outside the Division 6 were added to the final list. Salary increases were not discussed.
