O'Brien reported briefly on difficulty encountered during the last ten days on XD-1 during which performance has been poor. Coverage by Lincoln representatives has been increased, a major portion of the difficulty was traced to power supply voltage drift. Improvement is indicated by operating reports for Friday June 2.

O'Brien reported no basis of comparison of XD-2 performance with XD-1 since the test procedure differs.

2. Non-staff Participation

O'Brien said non-staff persons had expressed displeasure at the apparent discrimination implied in the June 1 Bulletin notice concerning the Texas Tower film. Everett stated that sufficient showings should be made for all who are interested; he will investigate.
