Memorandum 6L-334

Page 1 of 2

Division 6 - Lincoln Laboratory
Massachusetts Institute of Technology
Lexington 73, Massachusetts

Subject: Group Leaders' Meeting - 27 January 1958
To: Group Leaders and Associate Group Leaders
From: C. W. Farr
Date: 4 February 1958

Present: R. R. Everett, J. F. Jacobs, D.L. Bailey (item 3 only),
D. R. Brown, W. J. Canty, C. L. Corderman, N. L. Daggett,
A. M. Falcione, R. S. Fallows, C. W. Farr, J. B. Goodenough,
D. R. Israel, B. E. Morriss, J. A. O'Brien, W. N. Papian,
J. C. Proctor, E. S. Rich, P. Youtz, and C. A. Zraket.

Agenda: 1. ORO
2. Test Concepts
3. Trip
4. ATC Tapes
5. Air Traffic Control

1. This document has been prepared for internal use only. It has not been reviewed by Office of Security Review, Department of Defense, and therefore, is not intended for public release. Further dissemination or reproduction in whole or in part of the material within this document shall not be made without the express written approval of Lincoln Laboratory (Publications Office).

2. The research reported in this document was supported jointly by the Department of the Army, the Department of the Navy, and the Department of the Air Force under Air Force Contract No. AF 19 (122)-458.

ACTION

1. ORO

Jacobs reported on visit with Dodd to ORO the preceding week -- the ORO briefing covered results of a two year study.

2. Test Concepts

Brown presented a problem which has arisen in connection with Test Concepts -- initially Test Concepts were written and released by Lincoln -- this practice is not in line with distribution of responsibilities in SAGE at present.

Everett indicated that Halligan of BTL would be visiting Lincoln 28 January and that the question should be discussed with him at that time.

3. Trip

O'Brien summarized trip to Litton Industries on the coast and to Remington Rand UNIVAC in St. Paul.

This trip is covered by a detailed report issued by O'Brien.

4. ATC Tapes

Canty reported training tapes delivered to ATC -- ATC indicated the tapes were of limited usefulness because they had not been received earlier.

5. Air Traffic Control

Israel reported briefly on air traffic control study progress -- experimental work using CCS one day per week is planned.
