ACTION

1. ALRI Briefings

Zraket reported on the California trip to brief Western Air Defense Command and RAND on the Lincoln philosophy on ALRI. The presentations seemed to be well accepted and a number of valuable contacts were made.

2. Retrofit Testing

Jacobs reported on a Bell Laboratories - Western Electric document on the SAGE test philosophy which requires our approval. Implementation is a Project Office job so we will not be directly involved, but will be prepared to help if necessary.

Rich has the document in question for review and an examination into costs. Official concurrence will be within a month through Group 68 and a T.I.R.

3. Peter Bowman

Certain collateral advantages to the employment of Peter Bowman were discussed.

The application will be processed as usual when received.

4. Job Planning

The planned assignment for Division VI staff over the next year will be discussed with Halligan this Thursday.

Group Leaders will turn in proposals to Jacobs in preparation for a general discussion on Wednesday.

5. BOMARC

Jim Croke's BOMARC work will soon be completed with the publication of two documents, one on the test concept, the other on requirements for equipment and program simulation. It was agreed that such documents should be released through our established T.I.R. procedure.

Dave Brown will work out a procedure for formal ADSID approval replacing the previous 4620th approval.

SIGNED

J. C. Proctor
