Two mausoleum windows for the estate of B. B. Lederer.

Return blue print with designs and prices.

Information received from Mr. Connick April 26th

The windows are to be very fine, and prices to be given to include one bronze frame to contain both outside glass and stained glass for each window.

The subject is to be a landscape in each case, and at my suggestion that some idea might be incorporated as in the Mallinchrodt design met with the architect's approval.

Designs must be submitted within three weeks from today.
