General Information C.J.C. wrote - Dec. 29, 1930 - "My own feeling is that the

figure of Christ would be most impressive in the head of the window,

either enthroned or standing, robed and crowned. The angels (on either

side) could be four in number and could represent the four best-known

archangels, or could be angels of praise and prayer.

.....
Notice how Rood-beam affects the window - in photograph which Father
O'Connor sent us.
