Gertrude.

Mrs. Gavin has a strong preference for 14th Century glass in the style
of the windows at Chartres and Bourges. She greatly admires the two narrow
panels at either side of the great east window in the Princeton Chapel.

This window to have iron armatures as suggested in the design. This
armature is to be furnished and set in place by us.

Oct. 25 - Mr. Koralewsky gave price of \$150.00 for 2 armatures for the
Mullion Window.
