"IN LOVING MEMORY OF MARY WADSWORTH CHANDLER  
BORN JANUARY 11, 1866 - DIED AUGUST 4, 1927."  
Design wanted Before October 1, 1929. Staging .....  
Shipping address ..... Blue-prints Received .....  
Bill to ..... Templets .....  
Photos of Cartoons Mailed .....  
General Information "Christ Blessing Little Children". in a canopy type of  
work. Give added richness and significance to the design by introducing  
symbols of Matthew, Mark and Luke, whose Gospels include the incident.  
Use small angel figures holding shields containing these symbols - St.  
Matthew in the tracery piece and St. Mark and St. Luke in the ventilator  
sections.  
The walls of this church and the ceiling of the nave are of a fairly light  
stone-gray color - considerably lighter than is indicated by the photos  
in the folder. The walls of the chancel are light stone gray - lighter  
than the nave; and the roof of the chancel is gilt. All of the woodwork,  
including the window casings and mullions, is of black walnut. It is  
important that the tones of this window be comparatively light, as the  
church is at present rather dark, and requires as much light as possible.

For addresses of those to be notified as window progresses, see other side.
