General Information (See photo). Mr. Byk approved the arrangement of the panels in a general way. Wants them separated in the middle so that they can be used in either two or one panel. We will supply the necessary bars, wires, and they will make the frame, put it in there in New York.

(Mr. Byk is also sending up another panel which needs some reinforcing; and one piece of blue, which is too strong, should be replaced. He said to fix the glass up as we thought best, and do whatever seemed necessary).
