C.J.C. said "The office windows and single windows are to be the same type as nave, simplified."

Tower Windows and Gable window not seen.

(over)

For addresses of those to be notified as window progresses, see other side.

"I have in mind very much the same treatment (as the Chaplain's Rooms) but even simpler, for the little toilet window. I do not think it will be necessary to send a sketch for that.

For the East Gable and Tower windows, I am sending a little suggestion with lead lines similar in general character to the rest of the windows, so that the outside appearance will be very much the same, depending largely upon the leaded pattern."

(Extracts from letter to Miss Lower - February 16, 1931.)
