General Information Single figure with grisaille background.
This window will have Isaiah and Jeremiah
or canopy. The four Major Prophets - Figures on grisaille
Rich in contrast. Light fairly uniform with diagonal sunlight
at beginning of morning service. West windows get afternoon sun. (Vespers).
Dr. Stevenson feels the design is more continental than English - would
like the strong reds to merge with blue and gray and somewhat subdue the
tone. Mr. Connick says this can be done in the window, if he still feels
strongly about it. 5/16" round bar in circular vent can easily be removed.

For addresses of those to be notified as window progresses, see other side.
