Blueprints

General Information Wood frame being sent here. Contractor is Mr. Bartlett.

Subject: "Come unto me" - (like Huntington circle), but changing the face to be more familiar and appealing one, as in the Gethsemane circle at Smithfield. Also, use a red mantle instead of a blue one with a filling of blue. Likes the stars in the Huntington window. (background)

Go easy on the vesica shape.

The minister wants a strong manly Christ - face and hands. His ideal is Sallmon! Write him about this when sketch is sent.

We may also be asked to have a brass plate made with the above inscription, but also including the dates 1890 - 1952 under the name. See letter of January 7, 1954.

design for your rose window, and are sending you the color sketch herewith.

As you suggested, we have clothed Our Lord in garments of ruby and white, traditional color symbols of Divine Love and Purity. He stands with outstretched arms in an attitude of welcome, suggesting the theme "Come unto Me".

The growing decorative vine form enriching the surrounding field suggests the sacramental theme through the wheat and the grapes; while the ruby border is accented with stars of heavenly steadfastness.
