General Information Color sketch - ornamental pattern with a sacred monogram
in the center. They like the Berkeley roses and the Champaign
rose with the orb and cross in the center.

They have a local glassman who can set this, with written instructions,
according to a member of the Committee who is a building contractor.

This window to have plenty of blue.

For addresses of those to be notified as window progresses, see other side.

Rose window.

"...worked out in lovely rich color, but with sufficient sparkling jewel-like notes in smaller areas.

As planned, the decorative foliated pattern supports the eagle symbol of Saint John."
